

Representational State Transfer

- ❑ What is REST?
- ❑ Why does the WWW work?
- ❑ Does the RESTful approach scale?
- ❑ What are the different actors?
- ❑ How does REST differ from Web Services?
- ❑ When is REST better and when is SOAP better?
- ❑ Is REST simply a retrofitting or is it a theory that the Web was based on?
- ❑ Is REST a theory or set of interoperability principles? If not, is there such a thing?
- ❑ Should OAI-PMH v3 be built on REST or SOAP? RSS? Why(/not)?
