Survey Comments :-)

- ❑ No idea what is coming next.
 - Check notes to students.
- ❑ Pace is much too slow.
 - Be patient - the course is designed to teach from basics.
- ❑ Pace is much too fast ... or ... Course does not take “non-priors” into account ... or ... Cannot understand programming.
 - This is the pace – you have to adapt.
 - It is early days.
 - Use different techniques to study CS – more programming.
